

## A Gift For Fiction

### Fear Before The March Of Flames

OH MY GOD  
What have we learned?  
OH MY GOD  
We're doomed from the start

It's time to admit we're wrong and move on  
Kick our habits, self improvement  
Is anyone getting nervous?

We should all be afraid to die

I don't care as long as we, as long as we get there  
Get there

Fought, you fought and you got what you want out of me  
Caught, don't get caught, you'll be fucked if you know what I mean

Are you scared you can't tell me what your life's about?  
Thought provoking, it's all we need.  
It's all we need.

THE FEAR OF GOD IN US  
IN ALL OF US
