

## Review Our Lives (epic)

### Fear Before The March Of Flames

When does this book get good?  
at the end of the chapter or the start of "ever-after"  
BOOKS!  
don't you know a picture is worth a thousand words  
Teach them when their young  
gods twisted game of hide and seek

5-4-3-2-1  
Come out come out come out  
Sign your name on the dotted line  
There's no place left to hide  
Alphabetical lies in numerical time  
Come out come out come out  
And everything will be fine

It's now or never  
Make it now  
It's now or never  
Make it now  
It's now or never  
Make it now

And what if this is all there is  
we'll have to reevaluate  
And if at first you don't succeed  
Get on that horse and ride again

Stop!  
Please will you take my hand  
I thought of everything  
Hear what we have to save?  
Clean slates for living lies  
We're leaving the past behind  
Are you along for the ride?  
Please will you take my hand  
I thought of everything

It's now or never  
Make it right  
Make it now
