

## Treeman

### Fear Before The March Of Flames

I'm bleeding but I'm alive  
I'm breathing but I could die  
I can't explain why I'm made this way,  
Tell me you see we are all the same,  
When I look at you, I see all of you, not just the  
outside  
Some people stare like my eyes aren't there,  
I hope you see a piece of you in me,  
Because when we look into the mirror,  
Face could always be better, better better

I think I thought about who is I was...  
Just the same!  
But different!  
But still the same kid!  
I think I thought about who is I was...  
Didn't like it!  
So I changed it!  
Call me shapeshifter!

There's nothing stranger than a stranger,  
Strangely stranger than a stranger,  
You frighten me with your fear of yourself  
There's nothing stranger than a stranger,  
Strangely stranger than a stranger,  
Isn't it fun knowing we are so small?

I come around from time to time!  
Just a little taste of what's to come!  
I come around from time to time!  
Just a little taste of what's to come!

(We stand strong while we can!  
Come quickly! peel me off the glass)

I think I thought about who I was...  
Just the same!  
But different!  
But still the same kid!  
I think I thought about who is I was...  
Didn't like it!  
So I changed it!  
What or not!?  
If only you were camouflage, we could return to the  
trees,  
But you and I both know, you could never leave the city
