

Culture Of Fear

Fear My Thoughts

To hunt the ones I am here for

I don't care how long it will take, in a culture of fear I please expectations

If it bleeds it leads, we all know so well

I feed the needy - I feed them fear and I will shed not any precious tear

The distance of these motives is wide, I'm standing on the safer side

I'm here to spread Anxiety, I will fuel all your fear

I capture human tragedies, I'm here to catch the moments of pure despair

Agony is fueling me, Anxiety is ruling me

In a culture of fear I please expectations

In a culture of fear I satisfy you
