

Modify

Fear Of Domination

Time to let them see
Time to let them see what you can be
So let me in...

Now it's time to see what they will say
Time let them eat and devour the shame
All these frail limbs in my shell
I want to cut loose and modify myself

Too many things
And so little time
Too many pleasures to suck dry
For the sake of truth
The will see the news
And they will...
And they will...
Tell us the truth

Our life is...
Just comedy...
That we want to call...
Tragedy...

Purify!
We'll cleanse your mind
Modify!
Time to make things right
Now they will see what's really in me
We created something beautiful
So beautiful...
It is the pain that purifies
It is the pain that modifies

Listen!
They are screaming
They are calling for you
See them!
They are rising
They are coming for you

So many victims
So many burned
So much pain
This really hurts
So you see them now
They are crawling tonight
As always... As always before...

Look at me... Look at me...
