

## Theatre

### Fear Of Domination

I find my face from the dirt again  
and see the audience cry  
the show is over now  
so be quiet right now

Everybody is a fucking whore  
everybody plays a fucking role

We thank you now  
when you kick us on the ground  
and the blood comes out  
we thank you now  
when you kick us on the ground  
and the god falls down  
I never thought this was real  
and everything I deared  
was this theatre  
and all the things I deared  
and all the things I feared  
was in this theatre

I raise my face from the dirt again  
and see the audience smile  
they need more still  
so be quiet right now, gimme more!
