

# Say What You Want From Me (The Ghost You Left Behind)

## Fearless Vampire Killers

Out of dark into alleyways.  
Save your dreams and turn tail.  
Pray your demons lose scent of you,  
[I'm comin' to get you!]  
[I'm comin' to get you and gut you!]  
And then you must,  
Brace for impact and hell.  
[I'm comin' to get you!]  
[I'm comin' to get you and gut you, NOW!]

Ride hard,  
What I'd give to have another take the reins 'n get us home,  
But they're chasin' me and I despair.

Say,  
Say what you want from me,  
Tell me what you want to see,  
My love.  
I really wanna better way,  
To clear this disarray.  
I can't let them ever know,  
I'm looking for the ghost you left behind,  
And I am forsaken.

Faster now, there's so little time,  
I wanted to say,  
That if I die you gotta get away.

I'm reaching out to a brighter world,  
I wanna go, let me go, insane...

Say,  
Say what you want from me,  
Tell me what you want to see,  
My love.  
I really wanna better way,  
To clear this disarray.  
I can't let them ever know,  
I'm looking for the ghost you left behind,  
I'm blind to the reality that you died.  
I'm looking for the ghost you left behind,  
But I am forsaken.

Rising out of the city, black as night,  
Machines hungry for our flesh,  
As we make way through the valleys,  
The hellfire roars,

What did you say?  
What did you say?  
What did you say?  
Say or scream it!

Say,  
Say what you want from me,  
Tell me what you want to see,

My love.  
I really wanna better way,  
To clear this disarray.  
I can't let them ever know,  
I'm looking for the ghost you left behind,  
I'm blind to the reality that you died.  
I'm looking for the ghost you left behind,  
But I am forsaken.

I'm looking for the ghost, you left, behind,  
That will carry me to where I die.
