

## Let Go

### Feed Her to the Sharks

And I will never walk in your footsteps of deception  
I'll never hang my head in shame  
I see the beauty in your eyes forever fading with these lies  
Your words meant nothing all this time  
She smiles at me, I hold her close  
And in this moment time has stopped  
It's a bitter place, it's an ugly world  
She hides a secret no one knows  
No one knows her secret  
I know what you are  
I'll never let you steal the good in me and poison my soul  
You fucking bitch  
And I will always follow my heart and my convictions  
I'll always hold my head up high  
I've found the bravery to follow my own destiny  
Your fading memory is what will set me free  
She smiles at me, I hold her close  
And in this moment time has stopped  
It's a bitter place, it's an ugly world  
She hides a secret no one knows  
Let fucking go  
I've found the bravery  
I've found the air to breathe  
Your fading memory is what will set me free  
Will set me free  
She smiles at me, I hold her close  
And in this moment time has stopped  
I should've walked away  
I should've let you go  
Maybe I'm better off alone  
She smiles at me, I hold her close  
And in this moment time has stopped  
It's a bitter place, it's an ugly world  
For all this time she was someone else  
Someone else
