

## Murder Monogamy

Feed Her to the Sharks

I defy this lying world  
The place of broken dreams  
Beat my chest with an iron fist  
On my heart of purity  
It won't be long before the rain comes  
Falling from the heavens  
I sing this song in desperation  
Cause I fear that we are killing ourselves  
Confess you were never content  
To be with no else but me  
We regress because you undress  
Fucking anything that you see  
MURDER IS IN THE AIR  
KILLING US BY DECEIT  
(Now we say goodbye... to this monogamy)  
Get out  
Right now  
Or this will fucking end in violence!  
It's too late  
She's lost her way  
For all she knows is  
Everything's OK  
Can't you see that  
All we had is lost  
I'm trying to bury the dream alive  
You have destroyed yourself  
For the last time  
Certainly  
She's lost her way...
