

## Save Yourself

### Feed Her to the Sharks

My hate lives on  
Let the bitterness be gone

And you have played the innocent too long  
Unveil your mask and show the world who you are  
I watched from a distance  
To see you destroy your existence  
Betraying everything you love

Where is your fucking conscience?  
Can you save yourself?  
With eyes wide open  
Can't you see the blood on your hands?  
Is the weight of the world on your shoulders?  
I will show you a pain you will never forget

All that you know will crumble  
You'll fall to your knees  
The world seeks judgment from your wretched disease  
And you will burn for your mistakes  
And we will cast you out like a witch on the stake (2x)

My hate lives on

I refuse to live another day  
I refuse to let this bitterness live on  
Be gone  
Just let this bitterness be gone

Can you save yourself?  
With eyes wide open  
Can't you see the blood on your hands?  
Is the weight of the world on your shoulders?  
I will show you a pain you will never forget  
Forget

How can you sleep?  
Where is your fucking conscience?  
You are the thorn in my side  
You are the poison in my lungs  
My hate lives on
