

## Terrorist

### Feed Her to the Sharks

You're a coward, just face it  
You're nothing but a gutless terrorist  
You can't break us, won't defeat us  
This is the land of the free and we'll stamp you out  
We will never succumb to the voice of hate  
Faceless scum  
No!  
You will never strike fear in the hearts of the young, the brave  
Our daughters and sons  
Lay down your fucking guns  
The sky is raining blood  
We'll fight  
We'll bring the beast to its knees  
And feed the bastard justice  
You're a coward, just face it  
You are the voice of hatred  
So callous, so pathetic  
You're nothing but a gutless terrorist  
You're nothing but a murderous piece of shit  
Nothing you say will pay for your sins  
You sacrifice the innocent  
These heavy hearts will never forget  
This is war  
Lay down your fucking guns  
The sky is raining blood  
We'll fight  
We'll bring the beast to its knees  
This is war  
Bow down, feel the wrath of justice  
You're a coward, just face it  
You are the voice of hatred  
So callous, so pathetic  
You're nothing but a gutless terrorist  
We'll carry on, we'll stand as one  
We'll never surrender the love in our hearts  
We'll carry on, we'll stand as one  
These broken wings will fly once more  
We'll carry on
