

# Kings Of Grand Delusion

Feed the Rhino

They're the pacifist men,  
These are the needles of cowards,  
Truth is settled in stone many hearts to break  
Many paths to walk,  
Like to stick to the sun even when it shines black,  
Even when it shines black

Walk alone  
Walk alone  
Told you once, told you twice,  
Only here for the ride,  
We are the kings of grand delusion  
Only so much to take before it's gone,  
We are the kings of grand delusion

Here's a righteous plan,  
Spoken in tongues of the victims,  
As they fell to their knees,  
You heard the screams

Come for the ride,  
Grand delusion, grand delusion  
Come for the ride,  
Grand delusion, grand delusion  
Come for the ride,  
Grand delusion, grand delusion  
Come for the ride, You!

And still, the sun shines black,  
And still, the sun shines black

At first we were left for dead  
That place where we lost our breath  
In time this became our home  
Shovelled dust 'til we sat on thrones, built from dirt!  
The sons, built, from dirt!
