

Left For Ruins

Feed the Rhino

I've watched the world change,
I've seen it change
I've watched the world change,
I've seen it change

Look for the signs it gives you,
Look for them loud and clear
It takes no time to get you,
But lions have no fear

I've watched the world change,
I've seen it change
Bleed colours drained in time,
Left with an outline

Don't you try,
Don't you try, don't you try!
Don't try to change me,
You won't break me
We had our chances, had our choices

I've watched the world change,
I've seen it change
Bleed colours drained in time,
Left with an outline
I've watched the world change,
I've seen it change
Bleed colours drained in time,
Left with an outline

I woke with a fragile mind, full of decay
Led straight down the path of the blind, wasting away
You said it would work,
You said it would work!

I've watched the world change,
I've seen it change
I've watched the world change

Don't try to change me, you won't break me,
Don't try to change me, you won't break me!
