

## The Butchers

### Feed the Rhino

throw out your senses to your love, as you sit behind the line,  
wonder, waiting for the thunder to come.  
here we are, we're here to feed the animal inside you, inside  
you, inside you  
face down in the water, face down  
it's time, it wants you, it needs you, like a pulse beneath yo  
ur skin  
fucks you, fucks you, fucks you  
sweat pours, like you take it, every inch of me  
made this, take this, you've got no choice  
wired, wired,  
you've come this far to run, no hesitation now  
you stick with us the fold, the format of the sound  
live in a line, live in line, live in line  
we're going to start the revolution  
face down, in the water, face down  
and now your knees start to tremble  
so thanks for your service, wipe that shit off your face  
we went the whole distance, no you keep the change!
