

# The Caller Of The Town

## Feed the Rhino

Time, lost, weighing up the laws  
when your loosing, all of your senses  
time, lost, standing in the courtyard  
waiting for the axe of execution

Stuck in the cage with these lions  
so do you think you've caught us yet  
we tear the hearts from inside you  
well it's my pleasure, be scared!

You, there, standing in the chairs with your red eyes so purposely gleaming....

Regain control.  
Regain your senses.  
Regain all motion.  
You, will, learn....

This is the caller of the town  
here comes the caller of the town

Back, to life, moving in your stride  
clear the way...  
hide in the walls from these sirens  
well i can smell you by your clothes

Regain control.  
Regain your senses.  
Regain all motion.  
You will learn....

This is the caller of the town  
here comes the caller of the town  
Put out the fight, put out the fire  
i am the caller of this town

Stop right there, say your prayers  
now your scared, now your scared

We're never gonna stop, till the dust settles on  
we're never gonna stop, till the dust settles on

They've all gone away, they will go away, they've all gone away,  
y, they will go away.
