```
Some things never seen right
You've got no-one to blame
You've got the rest of your life
Amy
Waking up in the night
Somethings got a hold of your body inside
I just wanna be the one to take you out of this place
I just wanna be the one, the one
Come back down
Find a place
You've got nothing to hide
You can be that person that still lives inside
Amv
We've made our choices in life
But nothing gonna save you if you give up the fight
I just wanna be the one to take you out of this place
I just wanna be the one, the one
Come back down
Find a place
So, come back down
Come back down
You still gotta chance to carry on
Been trying to explain you're not alone
Turn around or you might never see
That person that you really want to be
Come back down
Come back down
So, come back down
Come back down
Find a place
Come back down
Come back down
```

Find a place
