

# Hundred Liars

Feeder

Lost in the power of the western world  
All the these resources but we still fail to observe  
People find a better way, better place now  
In your hearts, hold on  
Before our cities burn down, down, down, down

Love is not a criminal  
Love is not a criminal

We could be heroes  
If only, ride off into the glen  
We could be heroes  
Bury the lives of men

Stuck in a corner under fire  
Dusting our eyes from the feet of a hundred liars  
People find a better way, better place now  
In your hearts, hold on  
Before our cities burned down, down, down, down

We could be heroes  
If only, ride off into the glen  
We could be heroes  
Bury the lives of men

Another lesson learned  
And there's no place to return around  
Another lesson learned

Maybe some day soon we will live without fear  
The fear will fade, be erased, no more promises  
Maybe some day soon we will live without fear  
Forward to the next life  
Maybe some day soon we will life without fear  
The fear will fade, be erased, no more promises

Love is not a criminal  
Love is not a criminal

We could be heroes  
If only, ride off into the glen  
We could be heroes  
Bury the lives of men

We could be heroes
