

## So Well

Feeder

20, 21, 22, 23, 24, 25, 26 still alive  
It's dragging me under, don't think I'll recover  
A stone in the water, a nail in my shoulder  
Just put it together, you think you're so clever  
Can we make it better, climb the mountain together?

It's gonna break, gonna crack, gonna fall down and smash  
Paralyze, oxidize, feel us drifting apart  
It's gonna break, gonna crack, gonna fall down and smash  
Paralyze, oxidize, feel us drifting apart

Twenty years older, the city gets colder  
Still reaching for cover, we live and we suffer  
Just put it together, if you think you're so clever  
Can you make it better, pull the pieces together?

It's gonna break, gonna crack, gonna fall down and smash  
Paralyze, oxidize, feel us drifting apart  
It's gonna break, gonna crack, gonna fall down and smash  
Paralyze, oxidize, feel us drifting apart

40, 41, 42, 43, 44, 45, 46, still alive  
It's dragging me under, don't think I'll recover  
But we'll make it better, climb the mountain together

It's gonna break, gonna crack, gonna fall down and smash  
Paralyze, oxidize, feel us drifting apart  
It's gonna break, gonna crack, gonna fall down and smash  
Paralyze, oxidize, feel us drifting apart

It's gonna break, gonna crack, gonna fall down and smash  
Paralyze, oxidize, feel us drifting apart  
It's gonna break, gonna crack, gonna fall down and smash  
Paralyze, oxidize, feel us drifting apart

It's gonna break, gonna crack, gonna fall down and smash  
Paralyze, oxidize, feel us drifting apart  
It's gonna break, gonna crack, gonna fall down and smash  
Paralyze, oxidize, feel us drifting apart  
Paralyze, oxidize, feel us drifting apart
