

Staring at the ideal world
The bubble begins to break
Gazing at the ceiling cracks
The more the picture fades

It's just that I can't see when I'm down like this
I just feel the weight as I try to resist

Doesn't matter when I can dream away
Life in a stereo world
Something happens I drift away, away, away

Floating out of sync again
Reaching for a cloud
Levitated high, I'm free
Turning myself around

Just as I feel fine it begins to break
Now the pain is here what a big mistake

Doesn't matter when I can dream away
Life in a stereo world
Something happens I drift away, away, away

It just explodes as I drift in
A thousand hands caress my skin
I feel so free as it begins

Doesn't matter when I can dream away
Life in a stereo world
Something happens I drift away, away
You make me feel so good, feels so good away away

Life in a stereo world
Life in a stereo world
Stereo world, stereo world

Life in a stereo world
Stereo world, stereo world
Life in a stereo world
Stereo world, stereo world
