

# We Can't Rewind

Feeder

You're just a face in the crowd  
A tiny hole in the cloud  
You're trying to find your way in  
To let your soul shine back out  
We're just a twist in a seam  
A splash of paint on a screen  
We're making all kinds of shapes  
Somehow we can straighten out the bends

This is our time, we can't rewind  
Our place to shine out, we can live it anyway  
This is our time, to feel sublime  
Our place to shine now, and we can do it anyway  
We can't rewind

Do you think we can change?  
A different color and shade  
I guess a new kind of thing  
Somehow we can straighten out the bends

This is our time, we can't rewind  
Our place to shine out, and we can live it anyway  
This is our time, to feel sublime  
A place to shine now, we can do it anyway  
Oh yes, we can do it our way then

Stop taking me for a fool now  
Yeah, I've got this feeling inside me  
But I guess you knew  
We can work it out  
We can find some place new  
We can't rewind  
We can't rewind

You're just a face in the crowd  
A tiny hole in a cloud

This is our time, we can't rewind  
Our place to shine out, and we can live it anyway  
This is our time, to feel sublime  
A place to shine now, and we can do it anyway

This is our time, we can't rewind  
Our place to shine out, we can do it anyway  
This is our time, to feel sublime  
A place to shine now, and we can do it anyway
