

Celebrate

Fefe Dobson

I had to go through what I had to go through
To walk through the jungle, to get where I'm going
With my bare hands, yeah, I had to wrestle
The lions the tigers, yeah, this is my story
There's no easy way out
You just gotta run the miles
There's no easy way out
You just gotta figure it out
Living my life, with no regrets
Not looking back on yesterday-ay-ay
You've gotta fight 'till there's nothing left
To get the right, the right
To Celebrate
Celebrate
Celebrate
Celebrate
You gotta fight for your right to celebrate
Before a flower can grow any powers
Rain has to pour down like April showers
I built this tower, you won't knock it down now
I built this foundation straight from the ground up
There's no easy way out
You just gotta run the miles
There's no easy way out
You just gotta figure it out
Living my life, with no regrets
Not looking back on yesterday-ay-ay
You've gotta fight 'till there's nothing left
To get the right, the right
To Celebrate
Celebrate
Celebrate
Celebrate
You gotta fight for your right to celebrate
This is your, this is my, this is our destiny
I am me, you are you, we equal victory
La-la, la-la-la-la, la-la-la, la-la-la
La-la, la-la-la-la, la-la-la, la-la-la
This is your, this is my, this is our destiny
I am me, you are you, we equal victory
La-la, la-la-la-la, this is our destiny
La-la, la-la-la-la, we equal victory
Living my life, with no regrets
Not looking back on yesterday-ay-ay
You've gotta fight 'till there's nothing left
To get the right, the right
To Celebrate
Celebrate
Celebrate
Celebrate
You gotta fight for your right to celebrate
Celebrate
Celebrate
Celebrate
You gotta fight for your right to celebrate
Ay-ay-ay
Ay-ay-ay

Ay-ay-ay
Ay-ay-ay
