

# Julia

Fefe Dobson

Tell me this is not the end  
Julia  
You, my love, my oldest friend  
Julia  
I see you with flowers in your hair  
Julia  
Running around without a care  
Your days were numbered  
Yeah

And I want you to know  
You're doing this to yourself  
Time to show me the will to change  
And I swear I will help you  
I will  
I will shine my light on you

Let the sunlight show your face  
Julia  
No one knows you in this place  
Julia  
I see there's a distance in your eyes  
Julia  
Can I even reach you if I try  
Or is this goodbye

And I want you to know  
You're doing this to yourself  
Time to show me the will to change  
And I swear I will help you  
I will  
I will shine my light on you

I will shine my light of hope  
And change and everything that  
Might have been  
If you'd only hear my warning  
If you'd only hear me calling  
I would shine my light on you

Tell me this is not the end  
Julia  
You, my love, my oldest friend  
Julia  
You put your faith in dreams that kill  
Julia  
Lying with beauty, breath so still  
She couldn't be trusted  
Yeah

And I want you to know  
You're doing this to yourself  
Time to show me the will to change  
And I swear I will help you  
I will  
I will shine my light on you
