

## New Torch

Feist

You are, you are  
You are everything in time and space  
Forget the face you knew

You are, you are  
This was written in the afternoon  
The ancient runes of you

Take a trip into the sky with me  
Fly with me

You are, you are  
You are everything I've always feared  
And disappear from view

Take a trip into the sky with me  
Fly with me

Be mine through time  
This way leads into the garden green  
Some nights I've seen you here

Take a trip into the sky with me  
Fly with me
