

## The Wind

Feist

The wind that will bring me  
Out to you  
Is a wind that gets singing  
Whipping at the tune  
The same wind comes rushing  
That later lays low  
And it pulls at my edges  
Then continues to blow

Keep at the horizon  
Keep at the horizon  
Keep at the horizon

It brings hail from old water  
And a storm on its knees  
And flags from a revolution  
That brought us some peace  
And the trees for their hundred years  
Lean north like calligraphy  
And I'm shaped by my storming  
Like they're shaped by their storming

Keep at the horizon  
Keep at the horizon  
Keep at the horizon

You found you, I mean you  
Keep on the horizon

You found you  
Keep on the horizon

As strong as that wind  
That blew us round the island  
Is a wind that has lasted  
Longer than the past has

It's a wind that will keep on  
Lasting beyond ever after  
It's a wind that will keep on lasting  
Longer than the past has
