

# Undiscovered First

Feist

I had what I thought were clear  
Open eyes, bright blue  
Vision of a lake  
Carryin' pictures to lay on you

Close the blinds, let 'em in,  
Don't mind openin' it's the edge of love  
You can't un-think a thought  
Either it's there or not

Shadows of the mountain  
Don't tell them what's under  
The breadth and the height  
Of an undiscovered first

Now hopeful mountaineers climb up  
To eclipse like the whole sun  
'Cause it's been said that two would know  
What to do, it'd been told

Shadows of the mountain  
Don't tell them what's under  
The breadth and the height  
Of an undiscovered first

Shadows of the mountain  
Don't tell them what's in store  
The height and the breadth  
Is it wrong to want more?

Is this the right mountain  
For us to climb?  
Is this the way to live  
For you to be mine?

Is this the right river  
For us to ford?  
Is this the way you live  
For me to be yours?

Is this the way to live  
For me to be yours?  
Is this the way to live?  
Is it wrong to want more?

(Is this the way to live for me to be yours?  
Is this the way to live? is it wrong to want more?)
