

## Beating a Dead Horse

Fenix TX

I hate your can't stand your holding back  
But I wanna say much more every day gets worse  
Can't take this we made this  
Been a long time running out of patience  
Watch those evil words  
Don't slow down don't go down  
You should learn how to take it to the last round  
Think of circumstance  
Everyone's opinions matter more than your words of wisdom  
Give it one more chance  
Now you know this is your life  
And it's so beautiful but pitiful  
It's typical and now you know this is your life  
And it's so beautiful but pitiful  
It's typical and it's all yours  
It's not fair you don't care  
Sometimes I wish we never made it here  
Don't mean what you say  
Use your voice make some noise  
It's on the table  
So you better make the right choice  
Can't have it your way now you know this is your life  
And it's so beautiful but pitiful  
It's typical now  
You know this is your life  
And it's so beautiful but pitiful  
It's typical and it's all yours now you know this is your life  
And it's so beautiful but pitiful  
It's typical and now you know this is your life  
And it's so beautiful but pitiful  
It's typical and it's all yours
