Fergie

La la la la  
La la la la  
La la la la  
La la la la  
Mustard on the beat

Uh, tell 'em where I'm from  
Finger on the pump make the sixth straight jump from SoCal  
Hollywood to the slums  
Chronic smoke get burnt by the California sun  
On the west side east coast where you at  
Just got to New York like a net on a jet  
To London, to Brazil, to Quebec  
Like the whole damn world took effect to Ferg  
Tell 'em

Laid back, slow down  
Better represent when we come to your town  
So lay back, slow down  
What you represent when we come to your town  
Say

Get in with the business  
I'ma be there in a minute  
I just booked a Paris ticket  
Thinking Russia need a visit  
I'ma run it to the limit  
And be on my way to Venice
