Velvet

It's cold outside, why don't you come in? I know, my walls are crumbling It's late at night and lately I've been alone But that could be changing

What you do to me, conjures up feelings I've never felt before and your company I adore So deliciously, gold and burgundy Sink into me I feel so warm

I feel you, I taste you The smoothest wine Like velvet, can't help it This love's divine

The moon is full, the stars are aligned I know, just look into my eyes It's beautiful, your skin against mine I hope, you let your mind take flight

Under velvet skies, lover, we can fly Away from the world, let all of our love unfurl What a gorgeous ride, you don't have to hide A thing from me, I am your girl

I feel you, I taste you The smoothest wine Like velvet, can't help it This love's divine

I'm ready to feel you, slowly we escape Our time we can take, we can take, we can take I'm ready to feel you, feel you, feel you Feel you, feel you, feel

I feel you, I taste you The smoothest wine Like velvet, can't help it This love's divine

I feel you, I taste you The smoothest wine Like velvet, can't help it This love's divine
