

All Her Little Loving Ways

Ferlin Husky

I wonder if she thinks of me or ever needs someone
Who cares for her the way I did not long ago
I wonder if she's found someone to stay close by her side
To tell her things I never could that keep her satisfied
And now and then the many ways she shows her to love me
She always did the best she could to understand
When I bring home the troubles I'd been fightin' with all day
She'd take my hand and ease my mind with all her loving ways
Now she comes to me in secret when I lay me down to sleep
A dream of love so soft and low my heart will always keep
I wonder if she ever dreams or ever thinks of me
Forgiving for never giving love to her
And if she does then maybe she'll come back to me someday
And take my hand and ease my mind with all her loving ways
