

Every Step Of The Way

Ferlin Husky

Every step of the way every minute of the day devotedly I'll always be beside you

The seasons change but not my heart time will never see us part
I'll always care and I'll always be there every step of the way

Though winds of sorrow make you cry I'll be around

To kiss away the tears before they reach the ground

Every step of the way every minute of the day

I will love you every step of the way (every step of the way)

The seasons change but not my heart...

Yes I will love you every step of the way
