

## From Summer To Winter

Ferlin Husky

My friends they told me you change like the weather  
From one love to another you would go  
But when I first met you your love was like the summer  
Love I never dreamed of turning cold  
But then the autumn leaves started falling from the trees  
In your heart the season grew colder  
The wind began to blow and the clouds began to snow  
When your love turned from summer to winter

As the sunlight touches the face of a flower that's how soft yo  
ur lips were to mine  
Your love to me was just like the summer a sweeter love I knew  
I'd never find  
But then the autumn leaves...
