

My Shadow

Ferlin Husky

Like a shadow I stood by you I was happy and thought you were too

But you turned out the light and made things so dim

That my shadow won't darken your door again

No my shadow won't darken your door again

When a light's gone a shadow will come to an end

And I know I'm no more to you than a friend

No my shadow won't darken your door again

Like a shadow I followed you where you went I always went too

But I got lost in the fall and another stepped in

Now my shadow won't darken your door again

No my shadow won't darken...
