

That Big Old Moon

Ferlin Husky

That big old moon up there holds nothing for me
But a lot of lonely nights and the blue memories

It keeps on watching me won't let me love again
Reflects a cloud on me makes my future look dim
That big old moon up there...
That big old moon up there...

You may see a man up there I used to see one too
I don't see that man no more I can only see you
That big old moon up there...
