## **True And Lasting Kind**

Ferlin Husky

Yes our love is the true and lasting kind I walk the line because you make me want to Because you're mine there's a lot of things that I don't do It makes me proud to tell the world you're mine Yes our love is the true and lasting kind I've searched for ways to tell you that I love you And make you know that no one stands above you It's the thought of you that gets me home on time Yes our love is the true and lasting kind It scares me sometimes when I stop to wonder What would I do without you by my side I could never fill the space you leave behind yes our love is t he true and lasting kind Yes our love is the true and lasting kind
