

Weaker Moments

Ferlin Husky

I said I'm leavin' this time we're through
My love's run out there's nothing left for you
But when your fingers reach for my hand you've got me in my weaker moments again
In my weaker moments I can't help the things I do
Just one kiss and I'm a callin' back to you
Here I am once more givin' in you've got me in my weaker moments again
Now that it's over I'll be alright I close my eyes and try to sleep tonight
But you come knocking and I'll give in you've got me in my weaker moments again
In my weaker moments I can't help the things I do
Just one kiss and I'm a callin' back to you
Well look at me once more givin' in you've got me in my weaker moments again
You've got me in my weaker moments again
