

## Weaker Moments

Ferlin Husky

I said I'm leavin' this time we're through  
My love's run out there's nothing left for you  
But when your fingers reach for my hand you've got me in my weaker moments again  
In my weaker moments I can't help the things I do  
Just one kiss and I'm a callin' back to you  
Here I am once more givin' in you've got me in my weaker moments again  
Now that it's over I'll be alright I close my eyes and try to sleep tonight  
But you come knocking and I'll give in you've got me in my weaker moments again  
In my weaker moments I can't help the things I do  
Just one kiss and I'm a callin' back to you  
Well look at me once more givin' in you've got me in my weaker moments again  
You've got me in my weaker moments again
