

You Should Live My Life

Ferlin Husky

I wish I could live long enough to see you've hurt like me
It's not right but oh tonight I'm tired of misery
You should have to pay a little the way I've paid a lot
If you'd never know what torture ends then you should live my life
Your coming should be just like mine nothing should be left out
There'd be so much of happiness from inside your very soul would
shout
There would be no escape you couldn't run into the night
If you think you know what torture ends then you should live my
life
If you think you've ever hurt like me then you should live my life
