

## You Should Live My Life

Ferlin Husky

I wish I could live long enough to see you've hurt like me  
It's not right but oh tonight I'm tired of misery  
You should have to pay a little the way I've paid a lot  
If you'd never know what torture ends then you should live my l  
ife  
Your coming should be just like mine nothing should be left out  
There'd be so much of happiness from inside your very soul would  
shout  
There would be no escape you couldn't run into the night  
If you think you know what torture ends then you should live my  
life  
If you think you've ever hurt like me then you should live my l  
ife
