

## Aliens & Rainbows

Ferras

I never really made it  
To the human  
That you wanted me to be  
The glamour parade night  
After night  
Wasn't me  
I would rather be alone  
With aliens and rainbows  
On the other side  
Of the universe  
And finally this is me  
This is my coup de grace  
My reality  
We're only gonna hear em  
If we listen  
But you keep  
Talking all the time  
The radios, the television  
Steady confusion in my mind  
I would rather be alone  
With aliens and rainbows  
On the other side  
Of the universe  
And finally this is me  
This is my coup de grace  
My reality

A star is only glitter  
When it shatters in the night  
And it all becomes nothing  
Because nothing  
Oooohhhhh, yaaaahhh

Aliens and rainbows  
On the other side  
Of the universe  
And finally this is me  
This is my coup de grace  
This my reality  
This is my ending  
It's the ending  
I would rather be  
With aliens and rainbows
