

Dear God

Ferras

Dear God, listen up
I have to ask you a question
I can't hear, I think you're breaking up
I need a clearer connection

And God, are you listening
And God, are you even there

Now answer this if you really exist
Why do I have to deal with all this bullshit
What did I ever do, can I make it up to you
If you're so full of grace
Then send it on down

Lessons we learn
From the top of our birth
Are an endless source of confusion
See I'm on a search, because I've heard
You've got a magic solution

And God, it's time that you explain
And God, are you even there

Now answer this if you really exist
Why do I have to deal with all this bullshit
What did I ever do, can I make it up to you
If you're so full of grace
Then send it on down

Dear God, your grace
Send it on down to me
Dear god, your grace
Send it on down
Send it on down
Send it on down to me
On down to me
Come on send your love down to me

Everybody, if you really exist
Why do I have to deal with all this bullshit
What did I ever do, can I make it up to you
If you're so full of grace
Then send it
Send it, send it on down
