

# Marshmallow Spaceship

Ferras

January where'd you go  
You were my savior, barried deep in the sense  
It's not the here anymore,  
Since you been gone days are soo long  
I find you opened my eyes

I remember a time upon the silvery lights  
We floated to a new dimension  
You and I get so high, appears right through the sky  
On borad on marshmallow spaceship

January please come home  
It's no fun without you  
Lucy said, she thought she heard your voice calling outside onc  
e  
In the cold winds as they go on  
Maybe it's your ghost  
Somewhere in the distance

I remember a time upon the silvery lights  
We floated to a new dimension  
You and I get so high, appears right through the sky  
On borad on marshmallow spaceship

I can still see the lights and the comets rush by  
Just like it was yesterday  
After all of this time, baby your still on my mind  
Even though the snow is melting,... melting

I remember a time, above the silvery lights  
Yes we float, we float, we floated  
You and I get so high, appears right through the sky  
On borad on marshmallow spaceship  
You and I  
You and I, yes we float

I remember a time upon the silvery lights  
We floated to a new dimension  
You and I get so high, appears right through the sky  
On borad on marshmallow spaceship
