

# Wall Around My Heart

Ferras

Maybe this time I learn  
I've played the fool  
But I'm sick and tired of jumping hurtles  
Giving with no return  
What's the use?  
All I do is run in circles

On this glorious day  
Brick by brick I lay  
Alone here in the dark  
This messed up work of art  
I'm building, I'm building  
Witness the construction  
Of a wall around my heart

Through these tears I cry  
Evidence, evidence of former sadness  
Blurry are my eyes  
A reservoir  
Welling up from all the damage

On this glorious day  
Brick by brick I lay  
Alone here in the dark  
This messed up work of art  
I'm building, I'm building  
Witness the construction  
Of a wall around my heart  
Oh yes I'm building  
Oh darling it's no use, you no longer can get through (3x)

On this glorious day  
Brick by brick I lay  
Alone here in the dark  
This messed up work of art  
I'm building, I'm building  
Witness the construction  
Of a wall around my heart
