Wall Around My Heart

Maybe this time I learn I've played the fool But I'm sick and tired of jumping hurtles Giving with no return What's the use? All I do is run in circles

On this glorious day Brick by brick I lay Alone here in the dark This messed up work of art I'm building, I'm building Witness the construction Of a wall around my heart

Through these tears I cry Evidence, evidence of former sadness Blurry are my eyes A reservoir Welling up from all the damage

On this glorious day Brick by brick I lay Alone here in the dark This messed up work of art I'm building, I'm building Witness the construction Of a wall around my heart Oh yes I'm building Oh darling it's no use, you no longer can get through (3x)

On this glorious day Brick by brick I lay Alone here in the dark This messed up work of art I'm building, I'm building Witness the construction Of a wall around my heart **Ferras**
