

## Watch Out

Ferry Corsten

I can't... I can't... I can't... I can't  
I can't explain the way you make me feel  
The only thing I know it feels g'damn real  
Making me high is what it's all about  
So woman, you better watch out  
You better watch out! You better watch out!

I can't explain the way you make me feel  
The only thing I know it feels g'damn real  
Making me high is what it's all about  
So woman, you better watch out  
You better watch out! You better watch out!
