

## An Itch

Fever Ray

An itch tried to come after me  
And everyone started to touch me  
I don't understand, whoever I meet  
They always reach out to touch me  
Imagine touch by somebody who loves you

An itch that started to follow me  
The sensation [?]  
A world of pain, the digits spree  
Have you ever felt a sister?  
Imagine touch by somebody who loves you  
Imagine touch by somebody who loves you

Then everyone started to come after me  
And everyone started to touch me  
I don't understand, whoever I meet  
They always reach out to touch me  
Imagine touch by somebody who loves you  
Imagine touch by somebody who loves you

An itch that started to follow me  
The sensation [?]  
A world of pain, the digits spree  
Have you ever felt a sister?  
Imagine touch by somebody who loves you  
Imagine touch by somebody who loves you
