Now's the Only Time I Know

Fever Ray

Dark brown hair and eyelash Reappear in a flash Now's the only time I know

Early morning's greatest deed What's forsaken I do not need There is water there is snow

Settling down door and room Keep it tidy keep it like home Now's the only time I know

Come here sparrow
Watch my hand
Black and blue seeds
That is what my hand can
Now's the only time I know

Do my hair paint eyelash Reappear in a flash There is more I'd like to know

Nine fifteen then I'm done Quiet front seat then drive around Through the water through the snow
