

The Other Side

Fey

Trapped in the rhythm of life Nothing seems to color my path I'm in a web of confusion chasing my own Tail... round... and round

I need to push away this madness I gotta find the way out With all my dreams and illusions Waiting just to Break out and fly..
.

Estribillo (Chorus): I see what's waiting for me On the other side It's time to follow all the passion in my heart I'm standing on the sun with Nothing else to hide I'm ready finally I see the other side The other side

There is no more room for darkness Allow the light to come in You have to fight all the shadows You gotta break out and fight

I heard it over and over If you get caught up in the feeling again With all your dreams and illusions There is no reason to stop

Estribillo (Chorus): I see what's waiting for me On the other side It's time to follow all the passion in my heart I'm standing on the sun with Nothing else to hide I'm ready finally I see the other side

Is waiting on the other side, is waiting on the other side....the other side, is waiting on the other side....

Estribillo (Chorus)-repite hasta el final-: I'm standing on the sun with Nothing else to hide I'm ready finally I see the other side The other side I see what's waiting for me On the other side It's time to follow all the passion in my heart I'm standing on the sun with Nothing else to hide I'm ready finally I see the other side The other side...
