Glorious King

We come with broken spirits We come with broken lives People in need of a savior We come as a sacrifice

Oh Lord Jesus come! Come and kneel with us

God of all the universe Breathe again in us We will wait for you our Glorious King You are mercy you are love You can lift us up We will worship you our Glorious King

We come with nothing to offer We come with nothing to lose A people seeking communion We come seeking you

Oh Lord Jesus come! Come and kneel with us

God of all the universe Breathe again in us We will wait for you our Glorious King You are mercy you are love You can lift us up We will worship you our Glorious King We will worship you our Glorious King

We will rise and we will fall You are all the one [x3] When everything we work fails You are faithful still, yes [x3]

Oh Lord Jesus come! Come and kneel with us

Oh Lord Jesus come! Come and kneel with us

God of all the universe Breathe again in us We will wait for you our Glorious King You are mercy you are love You can lift us up We will worship you our Glorious King

God of all the universe Breathe again in us We will wait for you our Glorious King You are mercy you are love You can lift us up We will worship you our Glorious King We will worship you our Glorious King We Will Worship you our Glorious King
