

It's You

FFH

You don't have wear designer clothes
Unless you want to
I don't care what kind of car you drive
It won't define you
I look past the surface, the glitter, and gold
To the place that really matters to your soul

It's you, I'm in love with
It's you, I want most
When it all comes down
It's not what you do
It's you

You don't need to be perfect all the time
But you still try too
You don't have to conquer the whole world
I'll do it for you
It's not about how hard you work or who you're trying to be
But what I care the most about is that you see

It's your smile
It's your laugh
It's the look that you have
Every time you believe

Designer clothes or fancy car
I want you the way you are

You don't have to work it out
That's not what I'm all about
