

God Badge

Fiction Family

Put the God badge down
And love someone
Put your God badge down
And love someone
Let it free your soul
The world never was and never will be in your control
Put your God badge down
And love someone

Unlock your heart
And love someone
Unlock your heart
And love someone
There is no us or them
There's only folks that you do or don't understand
Unlock your heart
And love someone

You're not your own idea
And neither was this town
Love alone was yours to carry
You could lay your gavel down
You could lay your gavel down

Let Him light your path
And love someone, yeah
Let Him light your path
And love someone
You're not the jury or the judge
Quit acting out the fear that you call love
Put your God badge down
And love someone
And love someone
And love someone
And love someone
And love someone
And love someone
And love someone
And love someone
And love someone
Put the God badge down
Put the God badge down
Put the God badge down
Put the God badge down
